My name is Howard R. Handville and 13 I am the 30(b)(6) witness representing the 14 defendant. 15 Q. And I know you're familiar with 16 the ground rules for depositions, but just a 17 couple of preliminary things. I'm sure you're 18 aware I would like for you to wait for me to 19 finish any questions I'm asking and I will do 20 the same for your answers so that we can try to 21 keep the record as clear as possible. 22 Be sure to answer verbally rather 23 than head nods, head shakes, things of that 24 nature. If you don't understand any question	it to the best of my ability. And, you know, before this can be admitted to court, you'll have an opportunity to review the deposition, but your counsel, and, you know, trust any issues or mistakes that may pop up. Do you have any questions on those? A. No, I understand. Q. All right. So you're employed by PHH; correct? A. I'm actually employed by Ocwen Financial Corporation, the parent company of PHH. Q. What is your job title with for ease of sake, I'll just refer to Ocwen and PHH as PHH, as they're the named defendant, but what is your job title with them? A. The title is senior loan analyst. Q. And what does the what are your primary job functions? What does this position entail at PHH? A. And I was doing a whole bunch of 8 8 for appearing at depositions, mediations, different things, you know, for the year I 9 9 trials, case conferences, things like that, so worked there. Investor reporting, collections, 10 10 we primarily work on the litigated side of loan escrows, loss mit, a little bit of everything. 11 11 It was a small lender, so, you know, you kind 12 Q. And how long have you been in this 12 of had to wear a lot of hats. 13 position with PHH? 13 Q. And today I'm going to break down 14 A. I started with Ocwen in August of 14 -- the first thing is exhibit, Exhibit A. 15 2010, as a loan analyst and then through the 15 (Thereupon, Exhibit A was marked for 16 16 years, I got promoted to senior. identification.) 17 17 Q. So here you can see the Notice of 20 20 I worked for ABN AMRO Mortgage as an audit Deposition, pursuant to Federal Rules of Civil 21 21 manager or three years prior to coming to Procedure 30(b)(6). Did you review this prior 22 22 Ocwen. Before that, I was with -- as far as to appearing for this deposition? 23 23 mortgage banking, I was with a private mortgage A. Yes. Q. And you are prepared and confident 24 company for ten years doing loss mitigation. 24 25 The company was called CMA, Commonwealth 2.5 to testify on behalf of PHH as to the matters Page 8 Page 9 1 therein subject to the agreements made with 1 the federal complaint rather, and the responses 2 your counsel about certain limitations? 2 from that. I looked at the business records 3 3 A. I'm going to do my best. that we have imaged, I looked at the payment 4 Q. Thank you. So to start, I'm going 4 history, I looked at comment logs. Now, there are four options listed here, overnight mail, regular mail, MoneyGram, and Western Union. Are these the exclusive means by which or through which Ms. Ruckman would have been able to remit her payments under this trial period plan? A. That's my understanding. Q. If we look here, this is foreclosure counsel and that's used primarily 3 3 Bate-stamped page 249, there are a series of for tasks and tracking and things like that. 4 4 entries here starting on -- there's an entry on And so, for example, if 5 5 January 12, that states modification trial foreclosure initiated and counsel says, all 6 6 and/or expiration added to WIP list and right, going to start foreclosure, you need to 7 7 continues onward. And then there's not another send me the collateral documents, or you need 8 8 entry until January 15, 2021. to authorize title work, or we need somebody to 9 9 If there had been any execute an affidavit of indebtedness, the 10 10 communication between PHH and Ms. Bennett at portal is how they work with the servicer task 11 that point in time concerning the modification, 11 tracking to place the requests, follow up with 12 would it have been reflected on these records? 12 the requests, close those requests out, things 13 A. Not necessarily. I guess, it 13 like that. 14 depends on if Ms. Bennett wanted to put the 14 So it's not necessarily used to 15 information in there, but I didn't see anything 15 plug in email communications back and forth. 16 16 Occasionally, I've seen those type of notes, in there regarding that. 17 17 Q. And, I guess, my follow-up to but traditionally, they don't really get that 18 that, is what dictates whether something is 18 involved in updating our system with what 19 19 going to be entered into these records? What, they're doing, other than the relevant service 20 20 you know, what would be the purpose of having that they would provide as foreclosure counsel. 21 something either be reflected in these records 21 And through that methodology, is 22 22 how you service those loans and when 23 23 modifications and loss mitigation are underway A. Well, with regards to foreclosure 24 counsel, there is an interface. It's called 24 and you make the determinations, that's when 25 LPS or Loan Sphere and it's a communication 2.5 you made the determination to advise counsel, Page 32 Page 33 1 hey, we've got a completed MOD, we're working 1 this record or that would be separate and apart 2 2 on loss mit, put this foreclosure on hold till from this record? 3 3 we tell you otherwise. A. These are a lot of the parts of 4 4 what you see that are redacted here are those Then you process that and if 5 5 type of communications, you know, with our you're successful, obviously, the loan become 6 6 current and then you notify counsel, all right, counsel through that portal. 7 7 loan is now current, close this thing out, bill Q. So had there been any sort of task 8 8 us, dismiss the foreclosure action, we're all or communication issues about, you know, 9 9 through that process as to, you know, the good. Then they go through that process. 10 But, traditionally, we don't get 10 modification at that point in, it would likely much more than task-completion related type of 11 be reflected in --11 12 12 notations in that system, which will play out A. (Talking over) Yeah, there are 13 13 in our system. It may have the name of the some notes in there regarding outcomes of court 14 14 person on the other side that's inputting the cases or hearings. They update us on statuses 15 15 regarding mediations. They also do their fee information. Say, well, we changed the task 16 16 completion date from this to this because we're billing through this, so they'd say we got a 17 mediation coming up, we need to charge X amount 17 still waiting on the power of attorney or some 18 18 subsequent document that they would need to of dollars, can you approve it, so on and so 19 19 further whatever effort they're producing, so forth. So there are information tidbits that 20 20 we get regarding, I would say, more or less, that's primarily what those type of 21 21 communications generally are. milestone type events related to what goes on 22 22 Q. And I apologize if I'm during a foreclosure process.

So looking at the servicing communication logs here on January 19 and January 20 of 2021, you know, there seems to be some back-and-forth here. There's an entry saying the MOD agreement was accepted during the initial review, then there's a MOD agreement review for QC, agreement QC, cancelled, modification denied. What are these entries, what's going on here A. Yeah, it can be a little bit confusing because one can contradict the other or the timing is wrong. A lot of the people	2 3 4 5 6 7 8 9 10 11 12 13	according to this, we already see a denial. So one person chimes in with that. Another person chimes in, well, we're looking at it again, you know. Essentially, they looked at it, initially, all right, well it's been denied. Now that we've got it, we know it's been denied. Page 54 Page 55 1 1 A. I'm not sure. It seems like they 2 2 were still working on getting the denial Q. Is it the same reason why they 3 3 didn't, that they were still, that the reversed. It had been approved, but it hadn't. 4 4 modification still had not been implemented? Q. So the denial was reversed? 5 5 A. The decision to agree to reverse A. Yes. 6 6 it had been approved the end of January, but Q. Looking back at the servicing 7 7 they hadn't worked through all of the details notes -- I'll pull them back up here again, 8 8 to get the denial updated in the system, and, Exhibit D. So there are, here on Bate-stamped 9 9 you know, whatever processes are involved in page, it looks to be 247, there's an entry on 10 10 February 18, 2021, CIE PMT received, returned that 11 So when that payment came in, the 11 to pay originator, received on 2/21. One sent, 12 system hasn't been updated to show that they 12 reject reason more than 60 days. 13 would accept the payments and that's why they 13 So can you explain what that note 14 rejected it because it was a single payment and 14 means? 15 the modification hadn't been implemented. 15 A. That's the rejection of the 16 16 payment, I guess, that came in the 11th or (Thereupon, Exhibit K was marked for 17 17 identification.) 12th. Those are notes on that. 18 18 Q. I'm going to pull up what we'll Q. And so just to clarify, you know, 19 have as Exhibit K. This is another receipt 19 effectively, PHH received the payment through 20 20 after Ms. Ruckman's February 22, '21, was check-free pay, but then returned it back through their system; correct? 21 rejected. This is a receipt from her 21 22 22 A. Returned it back to the remitter, attempting to remit that payment to PHH via 23 23 check-free pay at Kroger on February 22, 2021, yes. I guess that would be Kroger. 24 at 5:59:55 p.m. Did PHH accept this payment 24 Q. Looking here at entry from TRA EXB 2.5 from Ms. Ruckman? 2.5 on 2/23/2021 here. This says JR exception Page 56 Page 57 1 review completed, incorrect due date in MSP due 1 hasn't been completed. 2 date change 1/21 to 2/21. Can you explain 2 Q. At that point in time --3 3 that? A. These smaller payments --4 A. No. Not sure what they're 4 What I'm saying is these smaller 5 5 referring to on that. payments, if it's not enough to satisfy in the 6 6 Q. Would it be reasonable to system the amounts due for the principal, 7 7 interpret this as that, for whatever reason at interest, and escrow, then they're placed in 8 8 this point in time that PHH's servicing system suspense and held there. 9 9 So I believe that's what this in or, you know, servicing system was thinking 10 10 that Ms. Ruckman was due for the January reference to, that the borrower did make a 11 payment under the modification as opposed to 11 payment in January so the next installment 12 12 the February payment under the modification? would be due in February. 13 13 A. No. It says that she's due for Q. And why was that -- so the 14 the February installment in February. 14 borrower had made the January payment on 15 15 Q. Well, it says they changed it from January 5, 2021, why was that not -- why did it 16 that. 16 take until February 23, 2021, to reflect that 17 in the system? 17 A. Right. 18 Q. They changed it to the February 18 A. I don't know. It looks like some 19 19 payment, but up until that point, I'm reading sort of an exception review was looked at, some 20 20 this that the system was showing she was due sort of report. 21 21 for January up until this entry. Q. And then the entry right above 22 A. Well, we're not talking about the 22 that, DLB team player working issue from 23 contractural due date of the loan. We're just 23 Cascade Cash management received. 24 talking about the remittance of the trial 2.4 Correct me if I'm wrong in any of 25 25 payments at this point because the modification these -- abbreviations I'm saying. I believe that the communications

I think that was sometime in March -- and sent them the \$873, that they would try to get the modification taken of and fixed. I think that's the communications that were going on at that time.

Q. And going back to Ms. Bennett's emails -- this is part of Exhibit F -- so there

2.5

Q. And going back to Ms. Bennett's emails -- this is part of Exhibit F -- so there are -- this email is from Ms. Bennett, you know, that our client has advised that you were due for the February/March payments for a total of 873.93. If you want the modification to go through, that payment needs to be made immediately. Our client's modification team has confirmed that they will accept that amount and then reverse the denial.

I'm getting a little confused as to the timeline of this denial reversal because it seems as though it was approved in January by management. In March, there were talks about, you know, getting reviews done. They weren't updating -- there was a note about updating to accept payment in, you know, the end of March, but then this email from March 8 is saying they would accept payment when they were denying payments during this time.

There seems to be disconnect in this timeline. When, you know, when was the denial reversal actually approved?

Page 71

A. I believe that the January and February entries indicate that we would consider approving this -- we would -- we're not outright denying the reversal. We're agreeing to reconsider and grant the reversal, but that's subject to performance and execution and getting everything squared away.

But the borrower is sending in these check-free payments for the 470, or whatever the amounts were, and they kept getting rejected because they weren't what really had been agreed to. We had agreed to -- and at this point had gotten to where the other payments had been rejected and, now, in order to do the modification reversal and perform the modification, they needed the February and March payments for a total of 873.9s.

And it says "Our client's modification team confirmed they will accept that amount then reverse the denial."

I think the real disconnect here is the payments that she had been sending in

Page 72

March that were rejected because they weren't, you know, this February and March payment amount, they were considered partial payments. And this says we'll agree to the full 873.

After that, I think the disconnect is really the borrower had sent in money in March, we had rejected it, but check-free didn't return it to her or notify her of it, as I understand it.

In fact, in talking to my counsel, I think check-free and held that and other money for quite a long time before they actually found the records that they'd been returned and, you know, made restitution to remit those funds back to the borrower.

So, you know, you got a lot of parties here, you got the servicer, you've got foreclosure counsel, you've got a third-party company that she's employing to make these payments and, you know, it seems like at this point in time we've pushed it, pushed it, all right, let's get this thing done, send us the 873, and I think the further emails of ours, well, I already sent a payment in March, so I shouldn't have to send you that much.

Page 73

Ms. Bennett was, like, yeah, well, it didn't get applied or whatever her response was, so. I think the final disconnect here is when we didn't get the 873, but we got the 470, I think that's where they kind of say, yeah, this isn't going to work.

- Q. So if you -- Ms. Bennett's email on March 6, references her making all the payments and that she was notified that PHH received payment, dated February 11, which would have been for March, asking, you know, to explain the situation and what to do.
- A. Well, that in itself is wrong. The payment in February would have been for February. February --
- Q. Notwithstanding, you know, notwithstanding that minor issue, you know, does Ms. Bennett's email in response, you know, I read Ms. Ruckman asking why are my payments being rejected, does Ms. Bennett's response ever actually address that issue as to why the February payment wasn't accepted?
 - A. I don't think so.
- Q. Did, to your knowledge, did PHH, you know, directly or through foreclosure

Let me share my 3 3 I will start over. I'll simplify screen again. 4 4 So if you look here on May 4, -- I'll strike that and rephrase. On May 3, 5 5 2021, there's another entry where my cursor is 2021, there are some, you know, requests to 6 6 that basically says that another payment advise when documents are received, confirming 7 7 received on April 30, 2021, in the amount of about payments being returned because of 8 8 470 was rejected. modification. What's going on here? Can you 9 9 So this was -- so between the explain what these entries are about? 10 10 customer account activity statement and these A. No, I can't. I don't know the 11 notes, numerous payments were rejected in 11 source of those. I don't know if this was from 12 February and March. One payment was accepted 12 the law firm, if it was from the borrower, if 13 in April, on April 1, and applied on April 1, 13 it was from borrower's counsel. I don't know 14 and then a payment after that on April 30, was 14 what the source of those questions are. 15 rejected. 15 Q. Then on here, on May 4, MOD 16 Why did, you know, what reason did 16 inquiry review is completed, there's a note 17 17 PHH have to go back and forth on whether they that has a whole bunch of that. So those codes that you're 11 referencing on the left of that, are acronyms 11 2021, there are essentially -- it appears to be 12 12 recapping all of the attempted payments and the that often, but not always are spelled out in 13 13 rejection of those payments over the course of the comments. 14 14 a couple of separate entries here, user ID 2K3. One more thing, going back 4 4 to the customer account activity statement. Is the, you know, account history on the mortgage 5 5 it typical that there were, as we have statement would have never shown those 6 6 discussed, you know, numerous payments received payments, like, going out and being returned, 7 7 or rejected and returned through the check-free it would just be blank as to that issue? 8 8 pay system. So the mortgage 9 9 would be rejected in manner and not be statements are going to be a reflection of what 10 10 the system of record is showing regarding evidenced on the account activity statement? 11 A. If a borrower were to send in, 11 balances and due dates. But the mortgage 12 let's say, a personal check, it would have been 12 monthly statements would show if there were 13 reflected in the notes.
